The bottom line. The whole topic of due dates and induction for due dates can be very confusing. There is a lot of information to digest. We feel that the most important points can be summarized like this: Due dates: The traditional way of calculating the estimated due date (40 weeks after the last menstrual period) is not evidence-based.

Problem gambling (or ludomania, but usually referred to as "gambling addiction" or "compulsive gambling") is an urge to gamble continuously despite harmful negative consequences or a desire to stop. Problem gambling is often defined by whether harm is experienced by the gambler or others, rather than by the gambler's behaviour.
