Orality is thought and verbal expression in societies where the technologies of literacy (especially writing and print) are unfamiliar to most of the population. The study of orality is closely allied to the study of oral tradition.. The term "orality" has been used in a variety of ways, often to describe, in a generalised fashion, the structures of consciousness found in cultures that do ...

Computer-mediated communication (CMC) is defined as any human communication that occurs through the use of two or more electronic devices. While the term has traditionally referred to those communications that occur via computer-mediated formats (e.g., instant messaging, email, chat rooms, online forums, social network services), it has also been applied to other forms of text-based ...
