In psychology, a first impression is the event when one person first encounters another person and forms a mental image of that person. Impression accuracy varies depending on the observer and the target (person, object, scene, etc.) being observed. [unreliable medical source?] First impressions are based on a wide range of characteristics: age, race, culture, language, gender, physical ...

Hereâ€™s my take on the on-page SEO insights from the infographic: 1. Use SEO-Friendly URLs. Google has stated that the first 3-5 words in a URL are given more weight. And our ranking factors study found that short URLs may have an edge in the search results.. So I recommend making your URLs short and sweet.
