A fortification is a military construction or building designed for the defense of territories in warfare, and is also used to solidify rule in a region during peacetime. The term is derived from the Latin fortis ("strong") and facere ("to make"). From very early history to modern times, walls have often been necessary for cities to survive in an ever-changing world of invasion and conquest.

Tilbury Fort, also known historically as the Thermitage Bulwark and the West Tilbury Blockhouse, is an artillery fort on the north bank of the River Thames in England. The earliest version of the fort, comprising a small blockhouse with artillery covering the river, was constructed by King Henry VIII to protect London against attack from France as part of his Device programme.

Fort Antonia contained the citadel, a tower or fortress, which was within other towers, as described by Josephus. In other words a fortress within a fortress. He leaves 600 x 600 feet to be the size of the whole area belonging to Fort Antonia by telling us that the Temple was 6 furlong around, including Fort Antonia. This is how I showed it be in my digital painting above.
